## **Farm Saver<sup>®</sup> Calcium Fulvate**

Soil Balancing

Cropping

Pasture &amp; Animal

Foliar &amp; Fertigation

### *Description*

The poorly translocated calcium ion requires foliar supplementation in all crops. Calcium in chelated form supported by a trace element blend for background nutritions.

LOW PRICE - HIGH QUALITY

### *Benefits*

- Calcium governs the uptake of other nutrients. It is also responsible for cell division and cell strength.
- Fulvic acid and kelp are powerhouse plant growth promoters

### *Packaging*

Available in the following volumes:

- 20 L
- 200 L
- 1000 L

## Instructions

- **Shake or stir well before use.** Where higher water rates are required for good foliar coverage, do not exceed maximum product rate per hectare. Sensitive foliage or plants should be test sprayed prior to full scale application.
- Store in cool dry area out of direct sunlight. This product has been tested to store safely down to 5°C. Crystallisation/sedimentation may occur below 5°C.
- Shake concentrate thoroughly before adding to partially filled tank.
- Ensure suitable spray conditions (e.g. temperature, humidity, wind speed), prior to foliar application. Compatibility and/or performance cannot be guaranteed when combined with other products.
- Jar test for compatibility and spray test on small area before wide-spread use.

## IMPORTANT

- Avoid spraying close to harvest if fruit/vegetables are susceptible to staining.
- Not compatible with soluble phosphate or sulfate base inputs.
- Product in 1000 L tanks may weigh over 1 tonne. Forklift with 2 tonne lifting capacity is recommended.

## Storage and Handling

Store in a cool dry area out of direct sunlight. This product has been tested to store safely down to 5°C. Crystallisation may occur below 5°C. Do not pre-mix or store in diluted form. Seal lid/cap immediately after use.

Disclaimer: Any recommendations provided by NTS and YLAD Living Soils are advice only. As no control can be exercised over storage, handling, mixing application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. The Buyer assumes all responsibility for the use of any NTS products.

## Typical Analysis W/V

Calcium (Ca) (as nitrate) .....	8.93%
Total Nitrogen (N).....	6.78%
Nitrogen (as nitrate).....	6.57%
Nitrogen (as organic).....	0.21%
Total Potassium (K).....	1.32%
Potassium (as organic).....	0.87%
Potassium (as nitrate).....	0.45%
Sulphur (S).....	0.54%
Manganese (Mn).....	0.21%
Iron (Fe).....	0.17%
Zinc (Zn).....	807 mg/L
Copper (Cu).....	785 mg/L
Boron (B).....	207 mg/L
Molybdenum (Mo).....	102 mg/L
SG.....	1.3
pH.....	2.3-3.3
Conductivity.....	95-115 mS/cm
Appearance.....	Brown liquid

## Application Rates

### Foliar Spray:

#### Vegetables

1 L per 100 L water up to 5 L/ha equivalent

Apply weekly or as required

#### Orchards & Vineyards

1 L per 100 L water up to 7 L/ha equivalent

Apply every 2-4 weeks or as required

#### Ornamental & Turf

1 L per 100 L water up to 5 L/ha equivalent

Apply every 2-4 weeks or as required

#### Broadacre

1-3 L /ha in 60-100 L water, apply as required

#### Pasture

1-3 L/ha in 60-100 L water, apply as required

#### Spot-Spraying

50 mL per 10 L water Apply as required

#### Fertigation:

##### Vegetables

5-20 L/ha, apply weekly as required

##### Orchards & Vineyards

5-20 L/ha, apply every 2-4 weeks or as required

##### Ornamentals

5-15 L/ha, apply every 2-4 weeks or as required

##### Pasture

3-5 L/ha, apply as required
