Foliar Spray:

Vegetables

1 – 2 L/ha

Apply every 2 – 3 weeks or as required

Orchards & Vineyards

1 – 5 L/ha

Apply every 4 – 8 weeks or as required

Ornamentals

1 – 2 L/ha

Apply every 4 – 8 weeks or as required

Turf

1 – 2 L/ha

Apply every 3 – 4 weeks or as required

Broadacre Crops & Pasture

Minimum 625 mL/ha, apply as required

Spot-Spraying

50 mL per 10 L water, apply as

Seedling Treatment

Dip seedlings in a 1:100 solution (1 L per 100 L)

Soil Application

1 – 2 L/ha

INSTRUCTIONS

- Mix the Activator powder and the B.Sub™ solution thoroughly in a clean vessel.
- Apply mixture as per Application Rates.
- Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

COMPOSITION

Contains the species *Bacillus subtilis*

IMPORTANT

- **Shake bottle well before use.**
- Contains live organisms. Do not mix with fungicides/bactericides, toxic chemicals or soil fumigants. Sanitise spray tank before application.
- All microbial products should be added to the tank last after all other inputs have been diluted. Ideally, apply in the late afternoon. Do not exceed 60 psi.

STORAGE & HANDLING

- Read safety directions before use.
- While handling, brewing and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. **DO NOT FREEZE.**
